

Dear Mr. Yamamoto,

Thank you for representing the Japan Pharmaceutical Association in supporting Taiwan following the earthquake on April 3, 2024, and for your generous donations to help Taiwanese pharmacists and the affected areas. There is a saying in Taiwan, "A friend in need is a friend indeed," and your association's actions are the best embodiment of this sentiment. Your support demonstrates the deep friendship and mutual aid between our associations, transcending national boundaries — a truly rare and valuable international friendship.

On behalf of Taiwan, especially the pharmacists and residents of the disaster-stricken areas, I extend our most sincere gratitude. As we mentioned in our previous response, upon receiving the donation, we will promptly forward it to the Hualien County Pharmacists Association to provide immediate and substantial assistance to local pharmacists and residents. We will handle the related procedures with care to ensure that this precious goodwill is honored and utilized effectively.

Sincerely,

President, Huang Chin-Shun

Federation of Taiwan Pharmacists Associations
