PRESIDENT'S MESSAGE

Dear Colleagues,

It is my pleasure to invite you to the 26th FAPA Congress on November 9-13, 2016 in Bangkok, Thailand. The theme is "Integrating Asian Pharmacy Wisdom for Better Global Health". It is FAPA's aim to make each Congress a dynamic venue for sharing, learning and networking for pharmacy practitioners, educators, students with renowned experts, health authorities, and pharmacy leaders. With a myriad of health problems affecting the Region, pharmacists need to learn from the wisdom, experiences and existing working models that would significantly improve health of the populations. In addition to its regular offerings in the Congress, FAPA created activities that will be responsive to the participants' needs. To name a few, the pre-conference workshop on Non-Communicable Diseases brings together brilliant experts and various stakeholders to discuss how pharmacists could reduce the burden of NCDs. Likewise, the AYPG night is expected to promote solidarity and networking among young pharmacists through social interaction during the Congress.

Let us all support FAPA Congress by attending and inviting our pharmacist friends to join this exciting professional gathering. We have done our best to make this Congress an unforgettable and relevant one for you. I hope to see all of you there!

Sincerely,

Joseph Wang
FAPA President
